

# American Third Position Political Platform

## Health, Culture, and Welfare

Create Youth Programs designed to encourage personal responsibility, civic vigilance, public virtue

- Gun education classes will be made available to teenagers for the purpose of proper use and safety.
- Rejuvenate the boy-scouts and girl-scouts by making them a state-owned/nationalized entity, intended to encourage civic responsibility and survival skills in nature.

Launch a Care-based Campaign based on a “Humanity First” approach

- Forgive student debt incurred from post-secondary education.
- Implement a national education program designed to encourage a fair, meritocratic approach that includes paid college for all of the citizenry.
- Subsidize and encourage students who take up trades to place a greater emphasis on blue-collar work.
- Create a two-tier healthcare, full-coverage system, where universal health care would be offered while the option for private healthcare providers remains.
- Guarantee the protection of Social Security for the elderly.

## Enact a self-detriment tax/added tax on vice-industry products

- Ensure revenue from taxes on vice-related goods and services will be dedicated to the education system and rehabilitation centers.
- Encourage healthy lifestyles.
- Create more virtuous conditions for the citizenry.

## Eco-Futurism

### Offer programs that subsidize the development of homesteads and encourage a more rural, subsistence based, agrarian lifestyle

- Offer state-funded classes on agricultural and ecological education including but not limited to hydroponics, polyculture, city farming, botany, etc.
- Develop state-localized farming co-operatives to provide a more subsistence-oriented approach to large-scale agriculture.
- Offer tax incentives for those who wish to participate in the agricultural sector.

### Develop alternative methods of transportation with a heavy emphasis on improved and reliable public transport

- Greater access to mass/long range transit to those of lower socioeconomic means with the goal of free transport. Trains (Bullet, Maglev, Vactrains), Trolleys, Electric/Natural gas buses.
- Increased access to bikeways and pedestrian pathways (Improved infrastructure catered to human powered transport).

## Develop alternative energy solutions

- Increased use of renewables, including but not limited to solar, wind and geothermal.
- Increased R&D into new and current forms of nuclear energy, including Fusion and Thorium based reactors.

## Safeguard the conservation of our natural resources and spearhead innovative practices towards a greener world

- An emphasis on green spaces that focus on the symbiosis between the man-made and natural world.
- Encourage environmentally-conscious practices in urban living, design, and architecture (ecological landscaping, carbon neutral buildings, greenways, pollinator pathways, invasive plant management).
- Restoration of forests reclamation of areas of urban decay.
- Increased protection/conservation of our National Parks, Forests, and other Natural/Historic sites.

## Restore the pioneer spirit by blazing a new frontier

- Establish a program that advances the role of NASA and the Space Force to achieve the Manifest Destiny of the United States by seeking to refine and develop resources in outer-space.
- Establish a program that advances the role of the Coast Guard and Navy to achieve the Manifest Destiny of the United States by exploring the ocean and mapping out the seafloor.

# Economic Justice

## Replace the Federal Reserve with a National Bank controlled by the Treasury

- Establish branches for the National Bank in every state, that would be capable of granting loans which could be paid back in taxes from earnings.
- No money shall be paid back with interest.

## Establish a more Progressive Income and Corporate tax rate along with a Universal Basic Income, which would take the form of a stipend or dividend that is paid out to American citizens

- Combat the coming automation of the market.
- Increase consumption in the market.
- Increase production in Industry.

## Establish tariffs on foreign imports while granting subsidies to American industries to help them reach a point of maturity that allows for a competitive edge in trade

- Combat trade deficits.
- Increase total productive forces.

Create sovereign wealth funds/state-owned trusts/government linked corporations that have a vested interest in refining and developing natural resources and the national economy

- Boosts national productivity.
- Gives the state more control over the economy.
- Give the state a source of wealth to distribute to the citizenry.

Create a National Labour Program that would provide employment to those out of work

- Create a National Workfare System that will help welfare recipients transition into the National Labor Program.
- Achieve maximal employment.

Launch a Worker’s Rights Campaign, based on achieving the following

- State-encouraged luxuries (resorts, exotic locations, national parks, etc.)
- State-subsidized or company-funded vacations.
- Workers landmarks, discount for years of service/meritorious action to the state.
- Establish a ‘paternal leave’ or state-paid leave for either parent (not to exceed 4 months).

Establish large-scale infrastructure projects that will rebuild and improve upon towns and cities in America, turning them into great public works

- Reevaluate stance on current acceptable building standards to encourage greater structural integrity and durability.

- Reinvest in public transportation.
- Encourage architectural cohesion.
- Repair existing infrastructure, ports, waterways, bridges etc.
- Gradually decrease funding for low-income housing projects in suburban and rural areas to allow for more autonomous and organic growth in local communities.

## Law and Order

Encourage a policy of “America First” that will actually put the people before the plutocrats

- Lobbying organizations & the practice of lobbying politicians will be outlawed.
- Corporate PACS will be outlawed.
- Foreign aid will be limited to countries that share our values.
- Full withdrawal of troops from Iraq, Syria, and Afghanistan

Encourage a dynamic where private entities are held to a greater degree of public accountability

- Government officials, individual citizens, or businesses will be able to sue media outlets through a state-provided court via libel laws.
- Classify ‘Big Tech’ Social Media platforms as a public utility that will be brought under state-oversight and potential state-ownership.
- Classify ‘Big Pharma’ companies as a public utility that will be brought under greater state-oversight and potential state-ownership.

## Reconcile the interests of private citizens and public law enforcement agencies through the following policies

- Full audits of all current law enforcement organizations.
- Reform the police and federal agencies to Include more rigorous standards on training and fitness as well as knowledge of state and federal law.
- Encourage the greater use of body cams and to encourage hiring strategies that target people within their respective areas as a means of achieving a more localized policing model.
- All adults purchasing a firearm will be required to have a background check and will be required to take a gun education class.

## Grant the following basic, civil liberties

- Legalize the status of cannabis as a recreational substance.
- Legalize/Protect the legal status of first trimester abortions. After the first trimester, exceptions will only be allowed in the case of rape or medical emergencies.

## Introduce the following reforms to the penitentiary system/institutional corrections facilities

- Turn prisons into working facilities that help and train inmates to be functional contributing citizens upon their release. Provide educational opportunities to inmates (k-12, college, trade schools).
- Offer transitional housing for reformed inmates made available while a newly released citizen seeks employment and housing.
- Impose the death penalty for crimes like treason, terrorism, mass murder, child molestation, etc...

Offer a path to citizenship for illegal immigrants that will consist of classes in education on American history and values; The path to citizenship will be granted to selected illegals who have contributed to the Nation during their stay

- Mandatory English second language classes.
- An oath of loyalty to The United States of America.
- Enforce heavy penalties upon companies that employ illegal immigrants with the possibility of imprisonment for the employer who is exploiting illegal labour.
- Limit social, medical, and welfare benefits only to legal citizens.
- Deport any illegal immigrants who have committed a crime on American soil.
- A moratorium will be placed on legal immigration to reexamine immigration policy.
- In case of marriage between an American citizen and non-citizen, the noncitizen does not become a citizen, but rather a ‘resident immigrant’.
- The children born from such a union would be considered to be citizens only after the non-citizen has completed their path to citizenship.
- Limit or eliminate work-visa grants while imposing higher taxes on companies that use work-visas.
